Bios Color Function Suggestion

Bios Color Function Suggestion

I would like to suggest that when playing on modes greater than original GB, the when the bios displays, you are able to press the directional buttons to change the palette coloring like on the real systems.

Bios Color Function Suggestion

by **Squall Leonhart** » Fri Sep 02, 2011 10:05 pm

the GBC bios is not emulated, and image boot support is not implemented at this point.

Â

the bios palettes are already implemented in the colour chooser gui anyway.
